

Cubie Burr & Cubie Burr #2

Designed and made by Bill Cutler and Jerry McFarland 2001, level 6.

(left: Poplar / Walnut, 2.2 inches;
right: Cherry / Walnut / Wenge, 2.2 inches)

The basic design of the 3-piece *GigaBurr* and *GigaBurr-2* was expanded to a 5x5x5 cube by gluing on edge and corner pieces. Cutler's computer search yielded three basic level 6 puzzles, of which these are two.
