### Farmer's Puzzle.

A man owning a square farm of 100 acres, took out 25 for himself, selecting a square as shown in the diagram. The remainder was to be divided equally between four sons, each to receive a share of exactly the same size and shape. Can you show how it is done?

**AN ILLUSION.**

Which horizontal line is the longer?

### 15 Puzzle. (Magic Square).

1	2	3
4	5	6
7	8	9

Rearrange the figures in this square, so that each column- up, down, or from corner to corner-will make a total of 15. No repetitions.
