

Numbers Barrel

Made in Hungary circa 1980's?

(plastic, 2.2 inches diameter by 2.9 inches long inches)

Tiles are numbered 1 through 6 in *red*, 7 through 12 in *yellow*, 13 through 18 in *blue*, and 19 through 23 in *green*. Tiles can rotate around the barrel in each of the three loops. Tiles can also move between loops in two positions (in the photo above, between positions 4 and 12 and between 16 and empty position 24). The numbers can easily be arranged in any order in a spirit similar to but even easier than the *Fifteen puzzle*.
