

Crazy Pyraminx

a.k.a. *Crazy Tetrahedron Plus*
Purchased from Mefferts, 2011.
(plastic, 3.75 inches)

In the same spirit as the generalization of *Rubik's Cube 3x3x3* to the *Crazy Cube 3x3x3*, this is a generalization of Jing's Pyraminx. Shown above is Meffert's "regular" version that has no restrictions on moves; each face can rotate around the circular portion in its center. Like the *Crazy Cube 3x3x3*, Meffert's also has produced different move restriction variations, with names of the planets (Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune).
