

# Rubik 2x2x2 Nested

**a.k.a. *Rubik 2x2x2 Super Square***  
*Patented by xxx, purchased from xxx.*  
(plastic, 2.2 inches)

Works like a *Rubik 2x2x2*, and also each face has a circle that rotates. So this puzzle is a bit like a *2x2x2* nested inside a standard *2x2x2* cube.
