

Rubik 3x3x3 Bandaged

a.k.a. *Bicube*

Made by Mefferts 2009.

(left: plastic 2.3 inches, red opposite white, yellow opposite orange, blue opposite green;
right: plastic 1+5/8", red opposite orange, green opposite blue, yellow opposite white)

The "bandages" restrict the way in which a *Rubik 3x3x3* cube can be mixed up, and the sequences to solve it are also restricted. *Jaap's Page* presents analysis and solution sequences. Here is what the other three sides look like:
