

# Time Machine

*Designed by Li Chung Man, sold by SMAZ, 2012.*

*(plastic, 2.6" face to face;*

*yellow opposite white, blue opposite green, red opposite orange)*

This puzzle works like a *Rubik's 2x2x2* with the addition of a wheel of 12 numbers on each face. It can also be viewed as a generalization of the *Smart Alex* and the *Hungarian UFO / Tricky Disky* puzzles.
