

Tricky Disky

a.k.a. Tricky Disk, Mind Trapper
Patented 1989.

(plastic, 2.4 inches diameter, 3.5 inches prong to prong)

This is a later version of the *Hungarian UFO* puzzle that was patented in 1983 (different cosmetically, but the same puzzle). The two copies of each color are distinguished by a small circle or triangle (instead of one or two dots as in the case of the Hungarian UFO), and these same markings are on each end of the color bars on the body.

Here is a simpler three-prong version and the directions that were sold with it:

**Magic
Cube & Top**

We design this product in-way to upgrade the teen-ager about their knowledge in 3D systematic. Being they play with this toy they can learning about 3D in-way to help them for the future.

When you first open the package of this toy, you can see the original face of the toy, remember this! And change each faces in-way to change it's position.

Frist you must mind the position of the color, turn the face upword or downword also. Rotate it to made it back to original.

Made in China, 2007, body is 2.2 inches diameter.
