

Four Piece Jigsaw Cube

*3D print design by Hvmhvm, <http://www.thingiverse.com/thing:1645742>, 2016.
fabricated on a Monoprice V2 printer in 2021,
PLA plastic, scale 95%, infill 22%, resolution 0.175mm,
four pieces, assembled printed size 1.5" square)*

Here are the other three sides of the assembled puzzle:

The pieces can be paired in either of two ways, and then the two halves slide together:
