

Saturn Ring

Purchased from Mr. Puzzle Australia 2006.
 (wood, 11/16" cubes, 2.75" x 3.5" x 2" when assembled)

This puzzle is constructed like *Kev's Cubes*. Here, 31 wood pieces (30 unit sized cubes and one 1x1x2 piece) are connected by an elastic cord, and must be manipulated into the shape shown in the photo above.

ONE OF OUR MANY COMPLEX PUZZLES
 DESIGNED & MANUFACTURED
 IN QUEENSLAND, AUSTRALIA

SATURN RING

The puzzle is to assemble the 31 blocks into the planet Saturn with it's ring.
 The blocks are strung on a closed ring of strong elastic cord so it's difficult for you to find where the puzzle starts and ends.
 The puzzle was designed by and is exclusive to Mr Puzzle.

The solution you've been waiting for to...
SATURN RING

Blocks are on the elastic in this order.
 No force is necessary to put each block in place however you may have to rotate the next block, and even other blocks, to get the order correct.

		30		1			
27	26	29	28	3	2	5	4
16	25	14	15	24	23	6	7
17	18	13	10	19	22	9	8
Bottom Layer		12	11	20	21	Top Layer	
Middle layer including Saturn's ring
