

# Monarch

*Designed by Stewart Coffin 2005; this one made by J. A. Storer 2011.*

*(walnut and cherry with paper piece labels, 4" x 4" x 3/4")*

Slide the pieces to fix the caterpillar and butterfly. Below are every 5<sup>th</sup> move of a 39 rectilinear (51 straight-line) moves solution. Solving for the order (caterpillar, butterfly, Monarch) can also be done in 39 rectilinear (50 straight-line) moves, and 39 rectilinear (51 straight-line) moves suffice to go between these two solutions.
