

# Moving Day

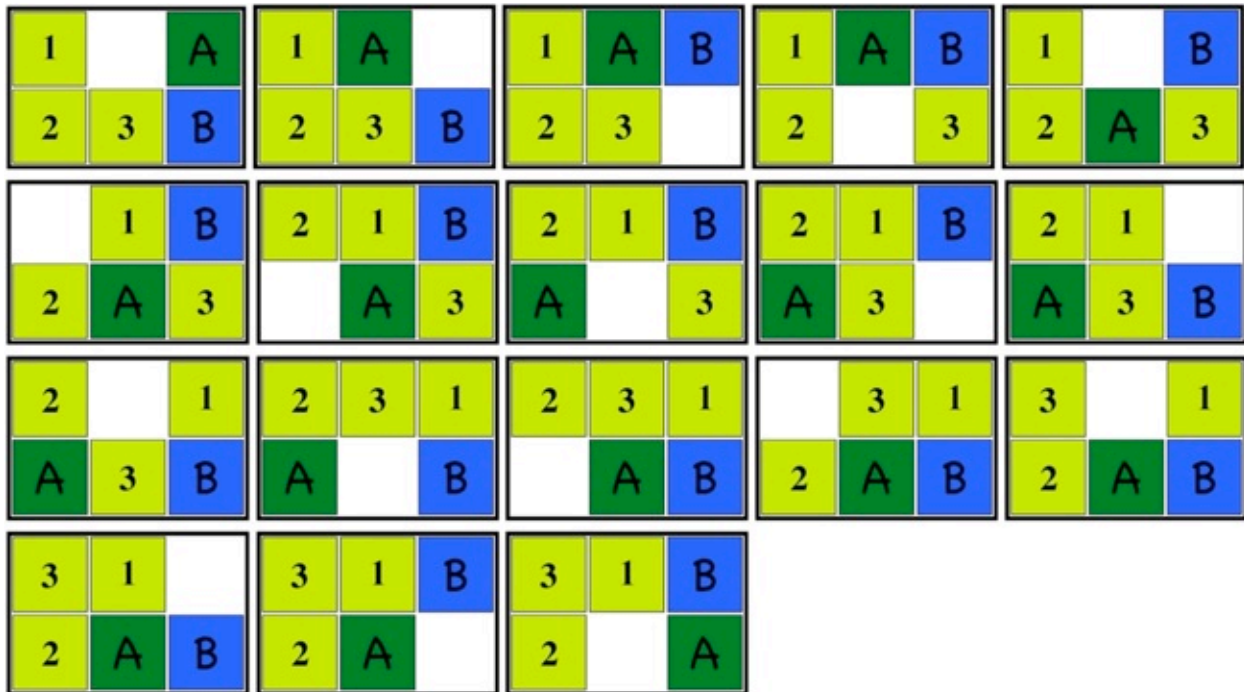

**a.k.a. 5-Block Puzzle, Lodging House Difficulty**  
*Very old design, this one made by J. A. Storer 2007.*  
 (cardboard sleeve, 5 by 7 by 3/4 inch wood tray, and five wood pieces)

The problem is to exchange pieces **A** and **B** by sliding the pieces:

Presented in the 1914 *Cyclopedia book*; both the 1942 *Filipiak book* and the *Hordern book* present a 17 moves solution (and *Baxter's Page* lets you play it on-line):
