Rubik's Rabbits

a.k.a. Rubik's Hat
(plastic, 2.4 inch top, 3.75 inch rim, 3 inches high)

Six discs, each with nine slices, can be rotated. In the initial position, with the letters
* Rubik
in a vertical line down the outside, no rabbits are visible when turning over the hat and looking in
the bottom with light behind. The goal is to rotate the discs so that nine rabbits, one in each slice,
can be seen. Jaap's Page gives an analysis that shows the following solution to be unique (this
view looks inside with the rim of the hat facing up):
