Ditho

a.k.a. Fourteen Puzzle

PLAS TRIX CO., Brooklyn, NY, 1950.

(soft plastic case, cards, and two 2.5 by 3.75 inch puzzles)

Similar to the Fifteen puzzle; use one puzzle to try to make different patterns (e.g., 1 to 14 in numerical order), or two puzzles to race an opponent to make patterns specified by the playing cards. Here are the front of the card box, the back of each playing card, the text from the back of the card box, and the front and back of the instructions card:
