

# Slideways

*Designed by Lee Krasnow, Pacific Puzzle Works, published August 29, 2018.  
(Printed on a Monoprice Mini V1 3D printer, from Thingiverse thing 2975065, 2019,  
PLA plastic, 1+7/8" square)*

Three identical pieces slide together in a simultaneous symmetric motion to form a cube. Below on the left shows the other three faces of the assembled cube and on the right the pieces.
