

Mental Blocks

KMS Industries, Alexandria, VA, 1968.
(plastic, 1.75 inches;
directions are in the bottom)

Each of the eight cubes has three colored rods going through it, one in each of the x, y, and z directions (four of the cubes have a *red*, *blue*, and *white* rod, two of the cubes have two reds and a white, one has two reds and a blue, and one has two whites and a blue). Take the eight cubes out of the case and arrange them in a single 2x2x2 cube to make continuous rods of the same color passing through it:

<p>WANT A REAL CHALLENGE ??? After you've solved "Mental Blocks," try "Nice Cubes" and "Double Disaster." Available at your favorite store.</p>	<p>mental blocks™ Tumble Mental Blocks out of their box and join the colored rods in each of the eight cubes to make one large cube through which the rods form straight continuous lines. You'll find it entertaining, stimulating and challenging.</p>
